

## **B1 & B2 Certifying Licensed Engineers required at JETS**

JETS (Bournemouth) Ltd ("JETS"), initially specialising in Hawker business aircraft, has been growing year on year since 2004 and continues to expand and improve capabilities to include Dornier 328, Bombardier Challenger, Learjet and most recently, Embraer Phenom 300.

JETS is based at Bournemouth International Airport, located near the picturesque seaside resort of Bournemouth and the charming New Forest on the southern coast of England.

JETS is looking for Part 66 AML B1 and B2 Engineers to support line and base maintenance activities. You will need to have an awareness of all associated and related Mechanical Aircraft Maintenance regulations.

Salary structure is based on candidates holding one of more of JETS' current type ratings listed below:

- **Hawker 700 – 1000 series**
- **Challenger 601 – 605 series**
- **Learjet 40/45**
- **Phenom 300**
- **Dornier 328-100/300**

JETS is always investing in its Engineering workforce and would also consider Licensed Engineers without the above type ratings with the opportunity to be considered for future type rating training courses.

JETS' engineering team currently operates two working patterns;

**7am-7pm – 4 on 4 off Shift System.**  
**Monday – Friday 42.5 hour week.**

Additional company benefits;

- **Company uniform provided**
- **Free parking**
- **9% pension scheme**
- **Death in service scheme**
- **Up to 24 days' holiday entitlement**

For further information or to apply for this position please contact Kayleigh Garlick via email at [kayleigh.garlick@jets.eu](mailto:kayleigh.garlick@jets.eu)

**Please note that CV's must be sent in word/pdf format.**

**ONLY APPLICATIONS FROM CANDIDATES WITH THE RIGHT TO LIVE AND WORK IN THE UK CAN BE CONSIDERED.**
